## Shorbio

---

I am a Computer Scientist (Ph.D. & Postdoc) interested in Machine Learning (ML) methods for the next generation of immersive systems and graph-based data. My career can be seen threefold. In research, I worked on research Multimedia & ML projects, contributed to communities (Springer, [ACM SIGMM](#) and [SBC WebMedia](#))(<http://webmedia.org.br>), and have been awarded research funding. In teaching, I co-supervised students, acted as a lecturer on under- and post-graduate courses, and organized workshops to promote student interest in public engagement. Last, I added value to the industry through open source and standards in TV forums ([ITU-T SG16](#) and [BR TV Forum](#)).
