# Alan Guedes — C.V. ☑ a.guedes@ucl.ac.uk • ③ alanlivio .github.io ③ alanlivio ③ alanlivio

#### **Shorbio**

I am a Computer Scientist (Ph.D. & Postdoc) interested in Machine Learning (ML) methods for the next generation of immersive systems and graph-based data. My career can be seen threefold. In research, I worked on research Multimedia & ML projects, contributed to communities (Springer, ACM SIGMM, and SBC WebMedia), and have been awarded research funding. In teaching, I co-supervised students, acted as a lecturer on under- and post-graduate courses, and organized workshops to promote student interest in public engagement. In industry, I added value to it through open source and standards in TV forums (ITU-T SG16 and BR TV Forum). <sup>1</sup>

### **Experiences**

Work

#### UCL, LASP Lab

Postdoc Researcher on ML project

2021-today

Highlights: ACM SIGMM committees and workshop organizer; co-supervised undergrad students.

- SpheryStream project funded by EPSRC to Improve 360-video streaming with profile-based methods

#### PUC-Rio. TeleMidia Lab

Postdoc Researcher on ML & Multimedia projects

2017-2020

Highlights: project PI; team leader; standards contributions; SBC WebMedia committees and workshop organizer (students for social impact); co-supervised under/postgrad students; postgraduate lecturer assistant.

- VideoMR project, funded by Microsoft & RNP to detect inappropriate content in video scenes;
- AML (Anti-Money Laundry) project, funded by BTG Bank, to detect financial transactions risk and anomaly detection;
- GT-RAP project, funded by RNP, to develop a blockchain-based system for academic certificates.

#### Dynavideo, TV Division

Software engineer
Highlights: multiple awarded social impact projects.

2012-2013

- Brasil4D project, funded by World Bank, to transmit interactive TV content with social features to low-income families. Its results were published in a public report

Education

#### **PUC-Rio**

Ph.D. in Informatics. Thesis on Multimodal-multiuser support in multimedia scene descriptions 2013–2017 Highlights: thesis concepts used in SBTVD standard; industry committees.

- PUC-Rio Ginga, funded by PUC-Rio Software Licenses, to develop a reference implementation for TV manufacturers;
- SBTVD Conformance Test Suite project, funded by Brazilian Ministry of Science and Technology, to be used by TV manufacturers

#### **UFPB**

MSc. in Informatics. Thesis on Multi-device support in TV app stores

2010-2012

Highlights: thesis concepts used in the awarded Brasil4D project; undergraduate lecturer; project leader

- ${\sf GingaStore},$  funded by RNP, to design a broadband system to deliver TV applications;
- Art TVDI, funded by RNP, to design agile methods for TV applications development;

#### HEPR

BSc. in Computer Science. Final report on Component-based architecture for TV middleware

2005-2009

- Ginga CDN, funded by RNP, to develop reusable TV middleware components.
- Tutor on Analysis and design of Algorithms;
- Part-Time software developer at Dynavideo TV Division to prototype TV software in ST boards.
